Some Improvement in Second Hour Though Business Contracts Considerably.

NEW YORK, February 2.-The stock market was quieter than during the last few days in the early trading today. Quotations held steady at around last night's close. Heavy buying of Reading was continued and it was advanced 34. Lorillard rose 3 points and Liggett &

The runaway movement in Reading, following yesterday's extensive rise, lifted the price to 159 in the first fifteen minutes. This rapid advance was not especially liked, and traders put out stocks when the general market hardened. United States Steel reacted from 61 to 60, Reading from 159 to 157% and Union Pacific from 162% to 161. Lehigh Valley sold a point under yesterday's closing and fractional losses were sustained by most other stocks.

Demand Soon Falls Off.

Speculation settled down to a more sober pace this morning, after a few days of unusual activity. The vigorous rise which was in progress when the market closed yesterday was continued for a time, but the demand soon fell off and trading became dull on a lower level.

Reading again puzzled traders by its unexplained strength, which led to heavy covering of short lines put out recently in the belief that, the rise in this stock had gone too far. Announcement that \$2,000,000 in gold was to be shipped to Paris had no effect on the stock market, owing to the heavy accumulation of funds Inter Paper com... 10% 10% 10% 10%

Business contracted considerably in the second hour, but there was a steady improvement in values. United States Steel and Reading rallied a point from the low figures and Union Pacific 1½. Some issues, including Lehigh Valley, New York Central and American Smelting, showed a lagging tendency. Bonds were steady. Selected stocks were lifted to a higher level, with the individual transactions in some issues becoming larger as the price advanced. Many blocks of 1,000 to 2,500 shares of United States Steel were bought, sending it up to 61%. Union Pacific and Reading also hardened and there was a belated rally in Lehigh Valley. Speculation became extremely dull when prices were restored to the high level of

ADVANCE IN COTTON

Both Bulls and Bears Buy Heavily in New Orleans.

NEW ORLEANS, February 2.-Cot-

ton's advance in price was resumed this

morning. Both bulls and bears bought heavily in the early trading and in half an hour's time had forced an advance of 22 to 26 points, or a quarter cent a pound. This is \$2 a bale above Wednesday's closing.

The advance was caused by a higher Liverpool market than expected, coupled with a good demand for spots there and a continued good inquiry at southern points.

The rise caught many stop loss orders for the short side. Much fresh buving by

phis shorts, who accepted heavy losses. With roads in good condition, better

CHICAGO, February 2.-Wheat made an excited upward jump today of as much as 1½ cents a bushel. Unusually light world shipments had led to urgen demand at Liverpool, Paris and other European centers, and had frightened shorts in Chicago. Besides, the receipts northwest of here which were expected to be liberal proved instead to be under last year's figures. Opening figures were 1/48. % to 11/2 higher. May started at 1.03%, a rise of 42% to 1 421%, and held firmly around 1.03%. In corn offerings were light and purchasing seemed the general order. Despite heavy stocks of produce on hand here, the market for provisions responded to the advance in grain. The Safest Investments Are those that do not fluctuate during dis-turbed conditions of the money or stock market. First deed of trust notes (first mortgages), well seemed on real estate in the District of Columbia, constitute "gilt edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet. "Concerning Loans and invest-ments."
